

CONSUMABLES

for gas analyzer OXYBABY® / PA / MAPY / MFA

Your WITT-Gas analyzer is made of robust material and needs very little maintenance. There is a natural wear in the daily work. To make sure that replacement materials harmonize ideally with your WITT device we recommend original WITT spare parts. Cost-effective quick and reliable.

Suitable for all OXYBABY®, PA-, MAPY- and MFA- models.

O₂ sensor

Especially long life time (approx. 2 years in air). Can be replaced by customer self.

Filter

Needle

Foam rubber seals for sealing the sample site at the package
